Working Knowledge

Design System Foundations
Accessibility Foundations
Usability Test Planning
Basic Product Metrics

AI-assisted Workflow

Prompt design
Rapid concept exploration
Research synthesis support
Design-to-code collaboration
Prototype iteration
Agent-assisted workflows

EDUCATION

University of Kashan
Bachelor's Degree in Psychology
2013 - 2017

LANGUAGES

Persian | English

PROFESSIONAL SUMMARY

Product Designer with +4 years of experience designing mobile applications, content-management systems, and operational products. Strong in interaction design, user flows, prototyping, visual design, and translating qualitative research into practical product decisions. I use Figma, Framer, and Codex to move from early concepts to clear, interactive experiences.

EMPLOYMENT HISTORY

- Independent Product Designer & Framer Designer**

Self-Employed, Qom | Dec 2025 - Present

Creating responsive Framer websites and visual product concepts. Designed Sora, an AI-powered astrology and synastry mobile concept, from early flows to interactive prototype and visual direction.

- Product Designer / UI/UX Designer**

NovinParva - Full-time | Jun 2023 - Sep 2025

Designed a bilingual English/Arabic Hajj guide, a centralized CMS for multiple mobile applications, and an office-automation product. Delivered user flows, information architecture, interfaces, and prototypes for complex administrative journeys.

- UX Researcher**

Kermani Health Group - Part-time / Contract | Mar 2024 - Jun 2024

Conducted exploratory research for a health-services product through online surveys, competitor analysis, and affinity mapping; synthesized qualitative findings into product recommendations.

- Product Designer / UI/UX Designer**

Aghigh Family - Full-time / On-site | Sep 2022 - May 2024

Designed experiences for Mehrabani, an online charity platform spanning content, logistics, credit allocation, and user profiles. Created flows, wireframes, interfaces, and interactive prototypes.

- UX/UI Design Intern**

Tank.ir | Feb 2022 - Aug 2022

Practiced interface design, user flows, wireframing, prototyping, and collaborative product-design work.
